

Hi Annie,

Thanks for walking down Isle View Road last week. I truly appreciate the time and effort that you, other members of the Highway Committee, the town board and residents of the community are taking in order to preserve the natural beauty of Isle View Road.

I would also like to ask you to please vote yes for the "Selective Roadway Maintenance" addendum that will be presented at this Wednesday's board meeting. The DBNA has worked tirelessly on this for years, proving how concerned and dedicated they are to protecting forested roads that are unique to our community. Sound, thoughtful involvement like this should be respected and rewarded by the board, ideally resulting in a progressive, exemplary community.

Also, please make sure that this email is read into the public meeting record tomorrow night. (I sent one to each board member.)

Thanks so much.
