

Hello,

We understand that an addendum to the town's tree trimming policy will be under consideration at this week's board meeting. We support this addendum to allow for selective maintenance of forested roads and protect them from excessive trimming.

Unfortunately, we are unable to attend the meeting. We are writing to let you know that we support this measure. We ask you to please vote "Yes" on the addendum for "Selective Roadway Maintenance".

Please read this email into the records of the meeting. Thank you.

Sincerely,
Neil and Barbara Smith
