Attention Liberty Grove Board.

Reference: Isle View Road Repaving.

As a concerned Northern Door Home Owner I was surprised to learn that the repaving of Isle View Road will not be extended to include Northern Door Rd which at one time was called Isle View Rd. I am sure that when you have driven on Northern Door Road you have observed that the condition of it is just as bad if not worse that Isle View. When Isle View was originally paved in the late 70's or early 80's the paving included both Isle View and Northern Door so it seems that it only makes sense that the repaving should include both roads now. With all the road equipment on Isle View Road it seems that there would be a cost saving completing the job at one time rather than bring all that equipment back at another date to do Northern Door. We have 22 homes on Northern Door which may be more than on Isle View and we deserve to have a road that is both safe and attractive to drive on just as the home owners on Isle View will have.

Please reconsider your decision and include Northern Door when paving Isle View.

A concerned home owner and property tax payer.
